6<sup>th</sup> October 2020

Dear Parents,

We have been finalising our strategy for Remote Learning during the COVID19 pandemic. This strategy is for all children in all year groups. Its purpose is to ensure that learning continues irrespective of lockdown and self-isolation.

Remote Learning is for children learning outside of school due to the fact they cannot attend school during the COVID period. It will combine a variety of approaches such as communication through an appropriate APP, online learning resources, paper packs, and online support.

The plan would be applied in the following instances:

1. An individual child who is self-isolating because of a positive test within the household;
2. A group of children who are self-isolating because of a case of coronavirus in their bubble;
3. A whole bubble / class is self-isolating because of an outbreak of coronavirus.

We believe that it is in the best interests of our children that we continue to provide structured learning and support to the best of our ability. **It should be noted that the work provided during a period of closure, or if a child is self-isolating but is fit and well, is not to be considered optional.**

Remote Learning will be provided via the Homework Hub which is accessible via the school website. This section of the website is password protected and parents should use their ParentsApp login details to access the site.

If you are having trouble with homework hub and are getting message 'email or username not found', please go to the following link and create an account:  
<https://carrhead.homework-hub.co.uk>

Teaching and Learning posted on the Homework Hub (labelled 'Isolation Work') reflects the learning in class in terms of key learning objectives for that year group. Children should share their work with the class teacher through SEESAW and feedback from the teacher will be offered where appropriate. Your class teacher will set up your access to SEESAW if you do not have this already.

If your child is in Oak class, remote learning will be set and submitted through the Tapestry APP.

Our Remote Learning Plan will be uploaded to the school website shortly. Please ensure that you have read this so you know what is expected of your child and what you will receive from school.

Our Remote Learning Plan is centred around the use of technology. We do acknowledge that this may be an issue for some families. **Where this is the case, we ask that you now contact the office and let us know that you will not be able to access the learning provided remotely.** Weekly homework is also being set remotely and so arrangements will also need to be made to ensure that your child can complete their homework. Where paper copies of isolation work are required, these would need to be collected from the office.

As a school, we will continue to do our very best in the circumstances and endeavour not to have any year group closures through encouraging good personal hygiene routines and handwashing. However, we do acknowledge that there are an increasing number of schools having to close year groups or whole schools due to COVID symptoms and positive tests.

We do ask that you are very vigilant at home, and if you suspect that your child has COVID symptoms please do not send them to school.

Kind regards,

Sharon Nicholson  
**Deputy Headteacher**
